Edmonton, Alta.

HON. R. O. REID,  
Provincial Treasurer.

Smoking forests or smoking chimneys—  
**WHICH?**

**WE CAN'T HAVE BOTH**

Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

### Abbott vs. Archibuter.

The case of Laura Abbott vs. John Archibuter, in which the plaintiff sued the defendant for \$10,000 as a result of an accident which occurred in Stony Plain over a year ago, was finally ended a few days ago. The case was originally tried before Mr. Justice Tweedie, who dismissed the claim with costs. Miss Abbott then launched an appeal, and the defence countered by obtaining an Order forcing her to give security for costs. To avoid putting up such security Miss Abbott applied to the Appeal Court to have this Order set aside. The question for the court to decide was whether she had a reasonable chance of success, in which case the Order would be set aside. After a lengthy argument on the law and the facts the court refused to set aside the Order, and since the security was not put up, the appeal stood dismissed. Messrs W. A. Buchanan & MacDonald handled the case for Miss Abbott; Geo J. Bryan for Archibuter.

### Rea v. Trahan and Gordon.

Another case of interest to residents of Stony Plain district was heard in the Supreme Court, when Tom Gordon Jr. and Ralph Trahan, who reside north of Stony, were tried on a charge of theft of timber. After nearly a full day of testimony, Mr. Justice Ewing found that there had been a technical offence due largely to carelessness and allowed both the accused off on suspended sentences. Geo. J. Bryan appeared for both the accused.

### Golfossip.

The Knockout Tournament closed with a bang on Thanksgiving Day, amidst the snow-flakes. Al Roders defeated Otto Wudel for the men's finalist by a somewhat close score. Al then turned around and played Mrs. Lewis (the ladies' finalist) for the Cup.

It was a very close game right thru to the finish, but Alfred emerged the victor by several strokes at the end of 18 holes.

We'll have to watch this guy "Al." It's his first year at the game.

There'll be one masterpiece at Oasepda College which will be greeted with a trophy now.

We hope the weather will improve, so as to get in a few more games before putting the clubs away in the moth balls.—D. K. M.

### Large Municipal Units

Proposals by the Alberta Government to organize large or municipal units in this province will be among the main matters to be discussed when the annual convention of the Alberta Association of Municipal Districts is held at Calgary on November 19 to 22 inclusive.

### Credit Means Debt

Much is being heard these days in criticism of Governments and banks, and proposals of many kinds are advanced having to their object the "reform" of the banking system, the "curtailment" of the powers of banks, the "nationalization" and the "nationalization" of banking, money and credit; the gold standard is attacked on the one hand and defended on the other; inflationism is advocated; "inflation" is urged by many, while others argue that present inflation means ultimate "deflation" and future trouble. Drastic writing down of present indebtedness, even complete wiping out of debts, is demanded in some quarters, which others claim is a policy of "repudiation" and the destruction of future credit.

Present criticism of the banks rests primarily in the fact that, at the present time, the banks will not extend credit. If people today could go to their bank and borrow as readily and as largely as they could and did in 1928 and 1929, much of the criticism now heard of the banks would die out. It is because they cannot borrow, and in thousands of cases have no employment and no means to earn, while in the case of farmers, prices are so low that there is less rather than profit on their production, that people, already in debt, are bitterly critical of the banks.

Critical over what? Because the banks will not extend credit to them. In other words, the banks will not allow these people to get further into debt to them. So much is being said about banking credit,—using it, expanding it, contracting it,—that the average person is likely to have a confused idea as to what banking credit, or any kind of credit, actually means. And as most of us are just average persons, and particularly where financial and economic terms are concerned, it is perhaps well to reduce credit to its simplest and most basic terms, and see what we make of it. Credit means debt. No matter at what angle we may view it, it means either immediately or prospectively, an obligation assumed, a debt to be paid. We borrow or buy on credit today and pledge ourselves to pay on some future day. This is true whether the transaction involves a dollar payable within a month or a million dollars payable in a score of years, and it is equally true whether it be an individual, a corporation, a municipality, a province or a nation. The principle is the same, no matter what the circumstance.

Our major difficulties today arise from the fact that there was too much credit, not too little, available to us in the past. It was easy to borrow; still easier to buy on the deferred payment, or installment plan. Everybody was doing it. The nations of the world fought a great four-years war on credit, destroying cities, industries, shipping, millions of productive human lives, blowing it all away with high explosives, and promising to pay the huge bills incurred at some future time. Farmers bought more land, more implements, combines, tractors, trucks, automobiles, radios, etc., etc., on credit; the workmen and married people in the towns and cities bought houses, and furniture, and automobiles, scores of things they regarded as necessities and other scores which were luxuries, on credit. Salesmen urged the people to do these things, telling them their credit was good. And all this credit moved just one thing,—it meant debt.

Governments and corporations proceeded on the same basis. Hundreds of millions of borrowed money were expended on railways, high standard highways, public buildings, and modern public services of many kinds. People demanded these things and enjoyed them. Voices raised in warning that a day of reckoning would come were disregarded, and those who gave voice to such warnings were derided as pessimists, people without vision or initiative, hopelessly non-progressive. Credit was available, so why not use it and let the future pay? And every credit used meant a debt contracted.

What was then the future is now the present, and we are called upon to pay. And that's the chief trouble today,—we have got to pay, and we don't like it. Nay, more, we have awakened to the fact that it is now well nigh impossible to pay, because we used up more credit, and thus created more debt, than our resources now enable us to pay.

Credit is an expensive thing. It also is an elusive thing, a will-o'-the-wisp to the unwary and thoughtlessly venturesome. But the debt created,—and remember debt is always created by credit; you cannot have one without the other,—is not elusive; it is a hard, concrete fact. No matter what your credit may be, it is no more, if you are wise, than your capacity to pay the debt which the use of that credit creates.

Present debts cannot safely be disposed of by apparently simple procedure of wiping them out by legislative action, or through the artificial process of inflation. Repudiation would be destructive of future credits which, without reason, are essential to the carrying on of the world's business, because all credit is merely confidence; destroy confidence by acts of repudiation and you destroy credit. On the other hand, inflation beyond normal, ultimately means deflation back to normal. If the pendulum swings to the extreme right, it will have to swing just as far to the left before it gradually reaches a normal position. There are laws of nature which no legislation in the world can override.

Not can present indebtedness be liquidated by more credit, which only means more debt, or a transfer of debt from one source to another. Debts once contracted must be honorably and honestly discharged. In some cases, by no doubt a goodly number of cases, adjustments must be made in order to prevent maximum losses by both debtor and creditor, but in the majority of cases debts ought to be paid through frugal living, practical economies, painstaking work. Having enjoyed what credit bought for us, we must now pay for that credit. Because we did not know how to use credit wisely when it was available, we are now realizing what it means to pass through the slow, laborious and generally painful process of paying our debts.

### Suffered A Severe Attack Of Dysentery

Dr. F. L. B. Mitchell, Vienna, B.C., writes:—"Last summer I suffered from a severe attack of dysentery. I tried nearly everything on the market, without getting any relief, until a friend told me to use Dr. Fowler's Extract of Wild Strawberry, which I did, and I got immediate relief. Now I am making it a rule to always keep a bottle of it in my medicine chest."

"Wild Strawberry is now used for dysentery, colic and diarrhoea, but I think we'll get the greatest benefit from it."

### An Unusual Damage Suit

Stephen Arthur Chalmers, 2000 Park Lane, St. Louis

For the loss of his hand, which was severed off in a French prison, a Belgian, M. de Hervey, is claiming \$100,000 damages from the State.

The hand, a beautiful growth, was of great prominence as well as aesthetic value. M. de Hervey declared because it enabled him to play important parts in which a picturesque appearance was required.

He leaves his claim for compensation on the fact that while awaiting release after completing a sentence for treason, he was used by mistake to the posthumous of France and subjected to the same regime as criminals who were required to be clean-shaven, instead of retaining simply under detention, as he was entitled.

### Money is scarce yet she has pretty clothes

"You always look as if you had just stepped out of a fashion show. Yet money is so scarce that you can't buy what you want. How do you do it?" the neighbors were always asking Mrs. Burnett. One day she told them. "My secret of pretty clothes is simple. When my dresses, blouses and underthings become faded with much washing, I renew their color beauty by a simple rinsing in Diamond Tints. These wonderful tints are made by the makers of Diamond Dyes which you know are the best dyes made for dark colors. Diamond Tints are for light shades. They need no boiling and they last through repeated launderings. All you need to do is to rinse your things in Diamond Tints. You can get such lovely shades by using them. So you see," said Mrs. Burnett, "pretty clothes are so easy for you to have as for me."

### Disney Plans Hockey

After thrilling spectators many times with his lively sports in a recent hockey match, the Bishop of London, who is 74, scored three goals. He was playing centre-forward for his old school, Marlborough, which clashed with Ridley public school in London.

### Soured ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile

—No Calomel necessary

Many people who feel sore, sluggish and generally worried make the mistake of taking salts, oil, mineral water, laxative candy or chewing gum, or medicines which only move the bowels and upset the liver.

What you need is to wake up your liver bile. That liver bile pouring the daily two pounds of bile into your bowels. (Get your stomach and intestine working as they should, once more.)

Get your Little Liver Pills will soon fix you up. Fully vegetable. Safe. Pure. Quick. Ask for them by name. Beware substitutes. 25c. at all drug stores.

### Adopt Water Walkers

Girl students of Lady Margaret Hall, Oxford, England, formed an aquatic club this year, and have taken up practically every phase of water sports. Walking on the water with old Scots has been one of the most popular recreations, and the girls have become adept at it.

An Old Of Mouth.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it was kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

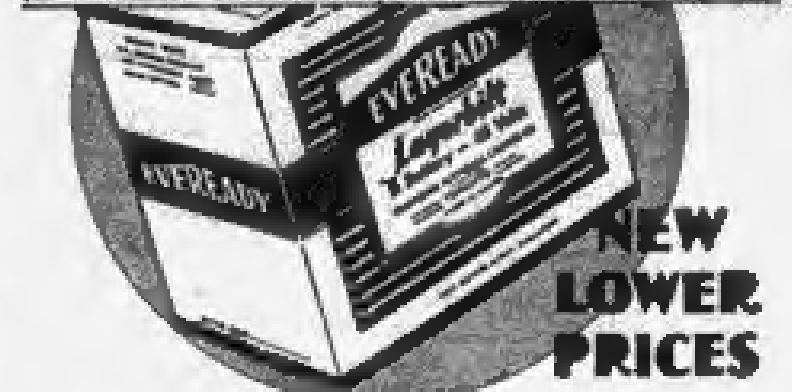

### Light Minded Revoked

A new medal, which has been invented by a British firm, is lighter than alcoholism, as strong as molasses, cheaper than beer, impervious to sea-water, and can be bent while still. It is already in use by the Admiralty.

Many mothers are guilty of the virus of Mother Goose's Worm Eliminator, because they have been experience how useful it is.

W. H. W. 1934

## POWER PLUS ECONOMY

It's a brute for punishment, this big solid Eveready Layerbik. No other radio battery can stand up under so many hours of heavy duty. It's thick, lasting layers are pressed down tight, filling every inch of battery with active, power-producing material. A Layerbik has no round cells, waste space or fine wire connections like other radio batteries. It stands alone in weight of materials, in hours of service, in economy and satisfaction.

Buy Eveready Layerbik Batteries and get life and pep into your radio set.

 Distributing and servicing Radio Batteries CANC, Toronto

### Less Butter Produced

Falling 60% In Creamery Butter Production For August

The production of creamery butter in Canada in August, amounted to 24,705,968 pounds, compared with 30,122,000 pounds in the preceding month, and 37,044,500 pounds in August, 1931. Nova Scotia and New Brunswick have increased their production, but from Quebec to the Pacific, production has decreased. The largest percentage reduction was in Saskatchewan, which is down 24 per cent. compared with last year. These figures were released by the Dominion Bureau of Statistics.

Perpetual Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No other precaution can be taken as that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

### Hero Of The Sudan

One of the last surviving heroes of the British conquest of the Sudan, Sir Rudolph Stein Pascha, 74, died in a sanatorium at Vienna, Austria. He was an Austrian by birth. When 31 he enlisted in the British army in Egypt. He served under "Chin" Gordon and with Lord Kitchener as chief of the British Intelligence Service, and subsequently, as the British general, Sir Rudolph Stein, he governed the Sudan.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

### Shouted Bad Luck

When the Thirteen Club of London held its annual luncheon recently, a prediction was defied in many ways. The members walked under a ladder, opened an umbrella in the room, split salt, sat at an oval table facing ladies' shoes, and in other ways shouted bad luck.

### This Method Is Simple

One Way To Combat Problem Of Soil Drifting

Soil drifting is a very serious problem in many parts of Canada, and many are the ways that have been tried to combat it. Here is a new one, and one which looks fairly promising. Spread strips of fresh manure about three rods apart. Then drive the spreader the other way across the field so as to make checkerboards. Not only does this keep the soil at home, but it catches the neighbor's soil.

### CANADIAN WOMEN FIND DUSTING DISTASTEFUL

Dust cloth going into discard; Unpleasant to use; a bother to wash

APPLEFORD WONDER PAPER HAS GREAT VOCAL

Of all household tasks, that of dusting is the least appealing to the majority of women.

However, this condition, like many another connected with housework, is undergoing radical change. In a great many Canadian homes the women are discarding dust cloth entirely, and are using Appleford Wonder Paper instead, because it actually dusters—as it cleans—as it polishes, doing a better and much quicker job than the old dust cloth ever did.

This new, and extremely modern Wonder Paper, is made from clean rags, and soft paper pulp, treated in a scientific way with a high-grade furniture polish; and absorbs dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size packages, twenty-five large sheets for twenty-five cents. You crumple a sheet into a soft wad and go over the surface requiring attention. Then when one side is soiled or worn, turn the Wonder Paper inside out. After you have given a quick and lasting finish to furniture and woodwork, you can still use Wonder Paper on the floors, if you wish.

And when you are through, there's no old duster to shake out or wash. Throw the soiled Wonder Paper away and you've completed the most tiresome part of housework in half the time and with half the effort.

Wonder Paper is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box.

Special Offer  
 Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, we'll be pleased to supply you from the factory. Just fill in and mail this coupon.

Appleford Paper Products, Ltd.,  
 Hamilton, Ontario.  
 Enclosed find 25c for which please send me one full-size package of Wonder Paper and your 100 coupons for "Lift-aways."

Free entry for Canadian wheat as against a general tariff of three pence per bushel.

Preferential rates on Canadian cotton-tinners in United Kingdom market.

Free entry on unseasoned milk powders as against a general tariff of six shillings per cwt.

## Wheat Movement To North

Shipping To Churchill Shows Signs Moving Up

Prince Albert, Sask.—Wheat movement from this division of the Canadian National Railway to Churchill is showing appreciable activity after wheat grain was held up for nearly twice that time by the action of Churchill. Prior to August 1st, 1922, 2,000,000 bushels had been shipped and since that date 1,000,000 more bushels have been sent northward from this division. There remains more than half a million bushels yet to be shipped.

### 2000 Bushels Large Order

Hamilton, Ont.—One of the largest bakery orders ever given in Canada, for 1,000,000 pounds of soft wheat, has been received by a local mill and will keep the working department busy working night and day for the next six months.

W. H. W. 1924

# Death Due To Negligence

Driver Killing On Auto Crash Which Killed That Of Engineer

Bethlehem, Eng.—A county judge found the automobile collision in the New Forest in which Earl of Spencer, former Premier, Alberta, minister, was killed last May, was caused by "gross negligence on the part of both drivers."

The judge arrived at his decision in concluding with costs action for \$100 by John Pacey, driver of the car in which the earl was killed, against Mrs. John Edmonson, London, driver of the other car.

The action alleged negligence on the part of Edmonson, but the judge found both were negligent in that each failed to see the other car and both were driving too fast.

There was not "a pin to choose" between them, he said.

## Communists Expelled

British East Twenty Frontmost Members Of Committee

Moscow, Russia.—The central committee of the Communist party expelled 20 prominent members, including Gregory B. Shervell, former chairman of the executive committee of the Third International, and Leo Bismarck, brother-in-law of Leon Trotsky.

The expelled members were accused of organizing a counter-revolutionary group for the purpose of overthrowing collective and state farms.

The Communists hit by the expulsion order are party men of long standing and former followers of Trotsky, who now is in exile in Turkey. They belonged to the right wing.

## Decision Rests With Local Authorities

As To Whether Street Should Be Paved In Money Or Kind

Ottawa, Ont.—Agreements between the Dominion Government and the various provincial governments respecting the administration of direct relief, place the decision as to whether it shall be paid in money or in kind directly in the hands of the local authorities.

The Department of Labor says the act specifically gives the prerogative to the local administrator of the fund.

## Dies From Injuries In Harvesting Accident

Young Farmer Was Caught In Machinery Of Combine

Bethlehem, Sask.—Severely injured in a harvesting accident, October 1, Robert Potter, 24-year-old farmer of the Beveridge district, died in hospital here.

Mr. Potter was injured when he was caught in the machinery of a combine he was operating on his farm twelve miles southeast of Beveridge.

### Editorial Criticism

Calgary, Alberta.—Criticism was levelled at the Dominion health of animals department by Hon. George Meadley, Alberta Minister of Agriculture, during an address before the annual convention of the Alberta Veterinary Association here. He maintained "reorganization of the health of animals branch is long past due." He urged a system whereby young men could enter the veterinary profession with the hope of adequate reward.

### Last Hunting Found

Greenhurst, Ont.—Drenched to the skin and suffering from exposure after spending most of two days in Muskoka's rocky wilderness, two Toronto men and one from Kitchener, lost while partridge hunting, were found. All were in good condition.

### Good Fishermen May Strike

New Westminster, B.C.—A general strike of fishermen covering the entire British Columbia coast appeared as a possibility following a protest lodged by the British Columbia Fishermen's Protective Association against the low price of salmon.

A material on hand and transported to give him been developed from crude sugar by an English scientist.

## NEWS OF THE EDUCATION

H. H. Ralston, R.C., former chairman of the Montreal Harbor Commission, who has been chosen to be one of the Quebec members in the Senate.

## Advances Plan For Circulation Of Money

Reflected By Economic Problems Suggested By A. C. Stewart

Springfield, Mass.—Offering a solution to the present economic difficulties by advancing a plan of putting more money into circulation in Canada and reducing the rate of interest, Hon. A. C. Stewart, Minister of Highways, spoke here.

He suggested a bank or commission to set up in a branch of the federal government for the purpose of handling all fiduciary money and gold. This bank commission would be authorized by the Dominion government to issue fiduciary money to such extent as could be absorbed under conditions fully explained by Mr. Stewart.

He stated that the result of this plan would mean that high-priced government securities would no longer be available to capital in Canada, but instead would be available to carry on industry and commerce.

The effect of sufficient money being put into circulation in the Dominion would mean that all great investment bodies and investors, not having access to government or municipal securities, would loan their money to industry and it would go into commercial channels at reduced rates of interest.

## Cost Of Imperial Conference

Total Amount Expended \$995,000.00 Common To Both

Ottawa, Ont.—The total amount expended in connection with the Imperial Economic Conference was \$995,000.00, Mr. George Parley, acting secretary of state, told William Duff (Lib. Antigonish-Capitane) in the House of Commons.

The sum paid for entertainment including lodging, restaurant and other charges of delegates and official parties while the conference was sitting in Ottawa was \$135,545.

## "Bright Fox" Sinking

Shipping Should Not Abort Safety and Preserving Of Ship Board

The Fox, Mass.—The feasibility and safety of the Boston Bay route should not be affected by the recent sinking of the "Bright Fox."

The sinking was an act of God, declared Captain R. H. Oliver, commander of the grain steamer, upon his arrival here from Churchill.

Captain Oliver declined any statement regarding details about his ship when the wreck came, but members of the crew declared everything was in order. Lifeboats were at their posts.

Captain Oliver was reticent about telling of the accident, stating he did not wish to commit himself until he reaches the coast, and the inquiry into the disaster is held.

"I shall be glad when it is all over and all the facts are known to the proper authorities," he declared.

"The striking of the iceberg by the ship was an accident that no man could avoid and was one of those tragedies that strike in the night," the captain said.

Churchill is a coming port and will become the centre of one of the biggest trade and shipping routes in spite of the loss of the ship, he said.

## English Woman Killed By Chinese Bandits

Mother Was Trying To Prevent Kidnapping Of Children

Harbin, Manchuria.—Mrs. C. Y. Wehrst, an English woman whose husband is chief accountant for the British American Tobacco Company, was killed by bandits as she struggled to prevent the kidnapping of her three children.

The bandits shot her dead, seized the children and fled. Two Russians pursued them but the kidnapers opened fire, wounding both seriously. Then the Chinese police took up the chase and rescued the children. The other two kidnapers escaped.

The crime was committed in broad daylight on one of the principal streets of Harbin and the whole city, which lately has been a prey to such raids, was raised to a high pitch of excitement. The children were unhurt.

### Object To Revolution

Calgary, Alberta.—Members of Alberta Retail Merchants' Association are opposed to a resolution of changes in the Debt Adjustment Act, and believe there is no need for discussion of the present system as proposed by the Alberta Bar Association, which suggested amendments of three main features in various sections of the province to aid in debtor-creditor disputes.

### British Premier Study The

London, England.—Prime Minister Ramsey MacDonald on October 12, celebrated his 50th birthday at work at No. 10 Downing Street, where his attention was demanded by matters connected with various pending conferences.

# PREFERENCE ON WHEAT SHOULD BENEFIT WEST

Ottawa, Ont.—A highly optimistic picture of the benefits which will accrue to Canada by the tariff concession granted in this country on wheat and wheat flour was given in the House of Commons by Prime Minister R. B. Bennett. He spoke of this from expediency on at the moment "of many immediate importance to this country."

Free entry of flour on against a minimum general British tariff of 10 per cent. is secured to Canada under her agreement with the United Kingdom. A preference of six cents per bushel on Canadian wheat is granted.

"Not only does the increase in the sale of Canadian flour widen the Canadian wheat market, but Canadian flour is most important in promoting the direct sale of Canadian wheat," said Premier Bennett.

"In 1921, the total import of wheat flour into the United Kingdom was 5,141,000 barrels, of which 3,712,000 barrels came from British countries and 1,429,000 barrels from foreign countries. Canada being the chief British empire supplier with 1,220,000 barrels and the United States the chief foreign supplier with 1,157,000 barrels.

"This tariff preference should do much to British empire countries a large part of the flour trade of the United Kingdom heretofore supplied by foreign countries."

"On wheat we have secured a preference of 10 per cent. Article 1 of the agreement makes the continuance of this preference, as well as the preference granted in respect to sugar, also and land, conditioned upon similar producers of these commodities being able and willing to offer them a first sale in the United Kingdom at prices not exceeding the world price and in quantities sufficient to supply the requirements of the United Kingdom consumers."

"I have never at any time represented to the wheat growers of this country that the effect of a preference would be to set up in their favor a price differential in world markets and at the expense of the British consumer. What I did maintain was that it was vital to us to find a secured market in the United Kingdom which is now by far, and in likely to continue to be, the greatest wheat consuming country in the world."

"There is no need of emphasizing the value of this market to Canada. The preference, it is agreed, will substantially increase the purchase of Canadian wheat by British importers."

## Winnipeg Asks Action On Jobless Problem

Will Ask Federal Government To Relieve City Of Unemployment

Winnipeg, Man.—Immediate action on the part of the Dominion Government to relieve city of the increased unemployment problem is demanded by city council. A resolution was adopted petitioning the government to provide every transient with transportation to his legal place of residence and proper food and accommodations while stranded here.

More than 1,000 transients have been taken off freight trains here within six days in accordance with the Dominion Government's ban on rail riding.

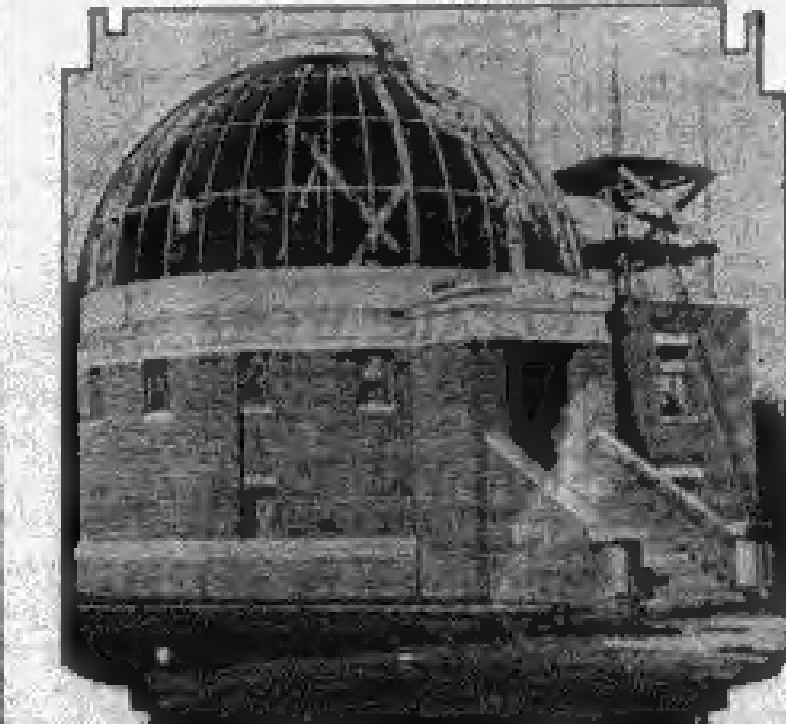

### Last Ship For Season

Churchill, Man.—Moving her way through a sea of calm and clear as it was turbulent when she came in the previous week, the steamer "Pezgiva" is outward bound from here, the last boat to leave this northern port this autumn and the 30th to carry grain overseas by the new Atlantic Bay route this season.

### British Exports Lower

London, England.—British exports for the month of September were valued at £14,228,000 for the month and £144,228,000 for the year, according to figures issued by the Board of Trade recently.

## REYNOLDS AUTOMOBILES-ROYAL OBSERVATORY

It is the custom of every Astronomer Royal to make some addition to the great Observatory at Greenwich, England, upon retirement, and above is the great telescope, which is to be the Franklyn's contribution. The dome and building, almost completed, will house the new 36-inch telescope.

## Stony Plain Sun.

Published Every Thursday at The Sun Office, Stony Plain.

Thursday, Oct. 20, 1932.

### Advertising Rates:

Display, 40 cents per column inch; photo, 15c per column inch. Readers in London, the Sun. Legal and Municipal Notices, etc. Life and Rent Insurance: The Sun makes references to insurance.

### Factory Worker Farmers.

Henry Ford is said to be pushing his plan to turn his factory operatives into farmers. The objective is to run the factories in the winter and have the operatives run farms in the summer. It has good features, and in the end it will work. Meantime the outlook for the farmer who has no winter job and the factory hand who has no work and no farm is not a happy one, says The Golden Age.

### The Wife Goes Shopping.

Here's the only case on record where a woman bought a motor vehicle and took them both home with her at once: Mary Bartholomew of Miles City, Montana, went East to buy a truck and a car, needed in her husband's trucking business. Mrs. B. went to Flint and bought a Buick; then drove the Buick to Pontiac and bought a GMC truck. She loaded the Buick, and pulled out of Pontiac at the wheel of the truck. Home was 1800 miles away, but it was nothing to Mrs. Bartholomew.

### Prevent Outbreaks of Fire.

This is the most serious time of the year with respect to fire hazard, and the Provincial Forest Service is advising the utmost care on the part of hunters, campers and others with regard to open fires.

Very dry conditions prevail throughout the wooded portions of the province, in spite of the fact that heavy rains have visited some sections this fall. These rains have not provided any great deterrent in reducing fire risks, and with an army of hunters and campers out at this season, special care is needed to prevent serious outbreaks, causing great destruction of valuable timber, not to speak of danger of the loss of other property.

### Protecting Wild Life.

A game commission official, observing mangled remains of wild animals on many of the highways, saw an indication of the "lust to kill" and wonders what kick a motorist gets in running over a helpless animal blinded by headlights. Motor car drivers, we claim, are as human as anybody else and few of the wild things are deliberately destroyed on the highways. On the other hand, the motor car helps the normal hunting instinct inherent in man and enables the real sportsman to reach his shooting grounds such as Antenna in comfort and without loss of time. The man who frequently gets away in his car for a day's shooting is the very man who would stop his car on the road rather than destroy a rabbit or a woodchuck.

### Holborn Happenings.

Mr Jack Lynch returned last week from an hospital, where he had been receiving treatment for the injuries received in a recent accident.

Harold Aronson is again attending school, after being confined to his home, suffering from the effects of a horse's kick.

Mr A. P. Anderson and family returned home on the evening of Oct. 19th, after spending three days of the Thanksgiving holiday at Westwilling.

Mr F. Maier commenced on Thurs. last to bale hay.

Mr F. Tarris will be moving the latter part of the month to his homestead in Wildwood district, where he expects to reside permanently.

The Holborn U.F.W.A. held their monthly meeting last week in the Community hall. The Hansen Corners and Grumina ladies had been invited. The day proved to be a very enjoyable one, and also a great deal of business was discussed. Mr and Mrs Hinder were guests of honor.

A party of Holborn game hunters arrived home one day last week from the great outdoors with pounding hearts and 2 squirrels and a chipmunk in the bag.—H.J.R.

### Sparkie's Travels.

A fellow roo and learner much when he wanders away from home, if even only for a few days. While on a recent motor trip with a friend, and when we were getting a tire fixed in a little burg, I walked out to the end of the Main street, and there was a cemetery which sported this sign:

Persons are prohibited from planting flowers in this place from any grave but their own.

At another place where we staid for lunch, a young chap was showing what you might call a combination motor car—made from all second hand parts. I asked him what it had cost, and he replied: "Not a cent! I live near a railroad crossing."

### Lots of Big Game.

The prospects for big game hunting, which opens Tuesday 1st of November, are said by those who should know, to be excellent this season. Moose and deer in the territory west and north of this district are reported to be plentiful at the present time.

### U.F.A. Asks for Wheat Banns.

In Calgary, on Friday last, the Executive of the United Farmers of Alberta sent a telegram to Robert Gardiner, who represents Acadia in the House of Commons and who also is president of the Alberta farm organization, asking him to submit a request to the Federal Government that a bonus on wheat of at least 50c a bu. be paid to farmers on their 1932 crops.

### Take Care of Your Tires.

The most common cause of tire trouble and the way to avoid them, are described in a useful little booklet, "The Care of Your Tires," which can now be obtained from all Goodyear dealers and branch managers.

### Clearly Justified.

An Arizona lawyer was addressing the jury: "Gentlemen, gentlemen, and nothing else. It is true my client charged the deceased five miles—and shot him in the back—but the reason for that was he couldn't catch up with the warthog as he to turn him around and shoot him in front. What could my client do? My client has a weak heart—if he'd run five miles and a halter more he'd have dropped dead himself, so he had to shoot at 40 rods to save his own life—and right smart shooting you will agree that it was—gentlemen of the jury."

### A Difference.

Realist—After all, what is the difference between a rich man and a poor man?

Sceptic—A rich man has more laryngitis and a poor man has a cold.

### Schedule of Mails.

From the East—Sun, Tues. and Thurs. 11:00 a.m.

From the West—Sun, Wed. & Friday, at 5:31 a.m.

Mail to East—Sun, Wed. Friday at 5:25 a.m.

Mail to West—Sun, Tues. and Thurs. at 11:00 p.m.

Reg. Dispatched and received with every mail.

### Open Season for Game.

Ducks and Geese—Sept. 15 to Nov. 15th.

Hungarian Partridge—Oct. 1 to Nov. 30.

Sharp-tailed Grouse—Oct. 1-30.

Phoebe—No open season.

Deer—Nov. 1 to Dec. 14.

Otter, Nov. 1 to May 1.

Beaver, No Open Season.

Harems—Between North Fork River and Tp. 31, March 1 to April 15.

Game Licenses can be had at the Office, where copies of the Game Act can be seen.

# Satisfied Canadian Owners have established CHEVROLET LEADERSHIP!

A hundred thousand owners of low-priced cars throughout Canada were invited recently to tell what they thought was Chevrolet's most important story. Like a mountain theme through the thousands of letters received was the conviction that Chevrolet leadership is based on the goodwill of the men and women who have tested the Chevrolet Six in millions of miles of driving.

The Chevrolet Six you buy today is a proved car; proved on the hard testing ground of a nation's needs and byways in the satisfaction of thousands of your fellow-Canadians. It has won admirably more today in the Great Canadian Value, for in this proud title has been won by each commanding Chevrolet since the day of the first motor car of the century at Oshawa, seventeen years ago.

No wonder, then, that since January 1st, Canadians have purchased more Chevrolets than any other car, regardless of price. What motorists have said in no uncertain way that they want six-cylinder smoothness, free-wheeling, synchro-mesh gear-shifting, Fisher bodies, four parallel-mounted springs—and the other Chevrolet features without which no 1932 car can possibly be called complete!

## 26 Lives Lost in Alberta by Fire!

Woe was the Toll of Human Lives in 1931.

Added to this was—

Property loss totalling more than \$3,000,000.00

Forest Fire loss totalling more than \$ 800,000.00

Help Us Fight This Great Public Enemy.

### WINE UP THE CAUTIONS:

- A neglected camp fire.
- A careless smoking fire.
- A carelessly handled burning stove or lamp.
- A lighted match carelessly thrown.
- An improper use of gasoline and kerosene.
- A yard or building full of rubbish.

These and many other causes result often in fires that cost not lives and do untold property damage.

### Senior Hockey Meeting

The Senior club held its first meeting of the season on Wed. Oct. 12. A fair representation was on hand. Larsen Oatway and W. Brown were elected chairman and secretary, respectively, followed by a discussion of business and activities of the club for the coming season.

First—It was decided that senior and junior are to carry on separately, and that both clubs are to compressive as far as rink expenses are concerned.

Second—The question of forming a new league, viz: with Medicine Hat, St. Albert, Fort Saskatchewan and Stony.

Third—A committee was next elected, composed of M. L. Larsen, L. Oatway, S. J. Comisarow, to consider whether or not it would be worth while to put on a season. A report on this matter will be presented at the next meeting, along with the report concerning the formation of a new league.

After a further discussion of pre season training and rink improvements, the meeting closed with a plan for a large turnout at the next meeting.

### A Quebec Judge on Hockey

Down in Quebec, where they take their hockey serious, a case was tried last week, where a player sued another for \$246 damages. It would appear that, while a hockey game was in progress, defendant took exception to the way in which complainant "gave him a body-check, with the result that plaintiff was struck with much force across the face with a hockey stick. Defendant claimed that he body-checked legitimately.

In giving judgment, the Judge stated that: "Professionalism showed an increasing tendency to deteriorate hockey and degrade it to 'bitchery.' Under the complaining eye of club officials and referees, hockey is deteriorating into bitchery, with the result that the public is developing a taste for bitching. The amount of damages was reduced to \$50, the court pointing out that there was no premeditation on defendant's part.

### New M.D. Boundary Map

A map showing the suggested boundaries for the new enlarged Municipal areas has been received at The City office. These boundaries are tentative only, and may be changed if the Government deems it to the best interest of all concerned after discussion has taken place.

The enlarged area proposition looks up Spruce Grove M.D. No. 548 with legs 500, Temahawk 521, and with No. 522 and parts of 542 and 541.

### Libel Suit Against Publisher Is Dimmed

The charge against C. H. Kelch & Sons, publishers of The Western Globe, Lacombe, of criminal libel growing out of an article in regard to one J. F. McIntyre, was dismissed by Mr. Justice Stannard last week, when the libelous did not appear to prosecute. J. F. McIntyre of Lacombe sued Kelch & Sons.

### Walker-Larsen

The wedding took place in Edmonton yesterday, Wed., Oct. 19, of a young lady who is well known to residents of Halbert and Stony Plain districts. This was Miss Marcelle Larsen (daughter of Mr. and Mrs. Benben Larsen of Edmonton) who was united in marriage to Mr. Clifford Walker, of Edmonton. On the return from their honeymoon, the happy young couple will take up their residence in the City.

Mr. and Mrs. L. M. Larsen, Mr. and Mrs. A. J. Anderson and a number of other friends of the young couple in the district were present at the ceremony.

### The H. T. Walton Case

The court case, Malawski vs. H. T. Walton, which had been adjourned from Oct. 24, was up again this week, at a session of the Supreme Civil court, Mr. Justice Ewing on the bench. Malawski is now suing for \$2000.

At Tuesday's sitting, and acting on the suggestion of counsel for both the plaintiff and defendant, Mr. Justice Ewing adjourned the hearing to make a visit to the scene of the accident.

The defendant H. T. Walton was on the witness stand on Tuesday, as also was his daughter who was with him at the time of the accident.

### Stony Plain and District

Sam Goshel has gone to Vancouver, where he has secured a position.

Mr. Carl Peterson left on Sunday for Mackay, where he intends to open a shop.

The local Moose Lodge are holding a dance in their hall on Halowe'en Oct. 31.

WINTER HAS COME—Barber Clarence is now wearing a chaparral.

Hans Trapp, the mechanic at the S. P. Motors, is on vacation, having received an injury to his eye.

BUTTER AND EGGS WANTED at The Royal Cafe.

### Church Services

Services in St. Philip's Church next Sunday, 11:00 a.m.

German Lutheran services will be held in Stony Plain next Sunday at 2:00 p.m.

United Church services every Sunday Evg. at 7:30.

Harvest Festival services will be held at the Methodist church on Sunday Oct. 25. Confessional services at 10:15. Service at 10:45.

### School Van Rammed

While the school van was proceeding westward on the Highway at the close of last school hour on Monday and was loaded with pupils, the van was struck by a motor car, damaging its rear wheel. The engine R.C.M.P. officer was notified, and made an investigation.

### Delegates to L.B. Convention

A public meeting under the auspices of Stony Plain Liberal Assoc. was held Tuesday night in the town hall, with President Geo. J. Bryson present. The business before the meeting was the election of delegates to the Liberal Convention which is to be held in Edmonton Friday, the 21st. Those who will represent this district are—

Dr. Walton, O. G. Wadell, G. J. Bryson, the latter ex officio.

A meeting held a short time ago in the Spruce Grove district for the purpose of electing delegates, chosen Messrs W. E. Kristow and Wm. MacLeod.

### Beard on Main Street

Comment—I was told to buy either a comb or a mirror, and I'm forced if I can remember which.

Obliging Clerk—Well, say: was it for a dead chicken or a live one?
